

It's a hundred years from today and everyone whose reading this is dead. I'm dead. You're dead. And some kid is taking a music course in Junior High and maybe he's listening to the Velvet Underground 'cause he's gotta write a report on classical Rock 'n Roll and I wonder what that kid's thinking? I wish they would invent a machine that told everyone's biggest secret - Yours and mine and low Reeds. The difference between movies and Rock 'n Roll is that Rock 'n Roll never tells a lie. Rock 'n Roll never promises a happy ending. I'd love to say the Velvet Underground played sad music - (When I listen to it I think about people I won't ever see again - but not that the world of Art? Van Gogh cuts off his ~~ear~~ ear and then some Art Class takes a field trip to some museum and someone's getting in trouble for smoking on the bus. I think the Velvet Underground was a scary group. What goes through a mother's mind when she asks her fifteen year old daughter what the name of that song you listen to and she says it

called "Heaven" and its by this group
called the Velvet Underground and they
have something to do with Andy Warhol.
Things are very uneven. Art sets a
~~countdown~~. I knew it when I was
Sixteen. I still am sixteen and rock n'
roll I wish I was writing in a
hundred years from today then I'd be
writing about music made by dead
people. There'd be a beginning and
an end. As it stands I don't know where
this album fits in. I think all of the
people on this album are dead today. I
know that at least one of them is
still ~~over~~ at it. Where does this album
fit in? - if it was a hundred years
from now I'd know for sure. Now^(UP)
I can only guess. I think its great
Rock n' roll. I think Alexander the
Great, Lord Byron, Jack the Ripper,
F. Scott Fitzgerald, ^{Kingstein} Jones Dean and
other Rock n' roll stars would agree
with me.

And maybe its 1969 and some kid
is borrowing his parents car and coming
into the city and doing things he'd never
done before and getting some hot then

his supposed to end getting in trouble but
it's all right cause he knows he'll
never be the same again. That's
what this album is about.

Rock'n Roll people tend to live on
the ~~EDGE~~ EDGE. (That's what this album is
about.)

Rock'n Roll is all we have left!
(That's what this album is about.)

Anyway - I could ~~do~~ analyze
every song ~~and~~ but that's what took all
the fun out of Chemistry.

I hope someday they'll teach
Rock'n Roll in history classes.

I hope ~~to~~ that the music on
this album is among the more
important subjects of that class.

I hope parents will still be scared
when they find their daughter listening
to this music.

I wish it was a hundred years
from today (I can't stand the
Suspense)
