

## WHAT THE FUCK IS GOING ON (Elliott Murphy)

Every day I got the blues - I don't want to say it  
But when I see the news - I got to say  
What the fuck ... what the fuck is going on  
The economy is starting to crash  
They say there's a crisis of credit and cash  
And the bankers and the brokers  
They take the money and run

But where do we go - Fools like me  
I'm working hard - Trying to raise a family  
They to say to invest - But it always goes down  
And I'm left with nothing - But that sucking sound

It's the sound of the hole - where my money goes  
And the billionaires if you think they care  
Well then you believe in Santa Claus, The Easter Bunny  
And the checks in the mail

There's something wrong here and I don't know what  
But I got a feeling down deep in my gut  
There's one big Ponzi scheme all over the world  
They're giving us crumbs - Saying we should be proud  
To be part of a system - That will always allow  
You to succeed if you work very hard  
But I don't believe it cause they're holding all the cards

And who are they - I don't even know  
Is that really your neighbor - On a reality show?  
Well my reality looks nothing like that  
And I'm not choosing sides - Not the left or the right  
I'm so sick of politicians - And the way that they fight  
They must think that we're stupid - Well maybe we are

But maybe we're good - Down deep in our souls  
The way we take care of the sick and the old  
I see the children in my children's eyes  
But I walk around scared and I don't know why

Scared to die before I live  
Will I have something left to give?  
To give my son a better world  
While mother earth is still a girl  
Damn my fear  
Damn my pride  
Damn my prejudice  
Open my heart  
Open my mind  
Give me strength when it comes my time

I'm not religious  
I don't go to church  
Except for my meetings  
But Jesus Christ  
If he was here today  
I think he'd be mad as hell

What the fuck is going on  
What the fuck is going on  
What the fuck is going on
